8) To register a team

For all the disciplines with team participation, please respect the following procedure:

First of all, the participants registered will automatically be registered in team # 1. The possibility of registering athletes in team # 2 or to choose between team # 1 and team # 2 will only appear when the minimum of participants needed to compose a team has been reached.

Once the maximum of participants in team # 1 has been reached, the other participants will automatically be registered in team # 2.

For the disciplines with a fixed number of athletes per team (i.e. petanque, table tennis...) the participants will automatically be registered in team # 1 as long as the team is not complete. Once the team completed, they will be registered in team # 2, team # 3 and so on.

We kindly ask you to register your participants in the correct team composition, as far as possible. The eventual online modifications of the team composition will not be possible once the registration has been approved by the organizer and the invoice has been paid.

Ex: Registration of teams in Futsal (5 persons minimum and 8 persons maximum per team)

- The first 5 inscriptions are automatically registered in team # 1.
- For the sixth participant, when the discipline must be selected, the choice between team # 1 and team # 2 will be displayed as follows:

Here, team # 1 is composed of 5 persons out of a maximum of 8 and team # 2 is composed of 0 persons out of a maximum of 8. Here, we can choose between team #1 and team # 2.

The composition of the teams can be modified as long as the organizer has not approved the registration (see point [10\)b](#) of this document).

A participant registered in several events, is mentioned several times in the **"Registrations recap"**. However, he will be charged only once.

c. Approval of the registrations

The registrations must be approved systematically by the organizer. The 2 columns on the right of the page **"Registrations recap"** indicate whether this approval has been executed or not.

Once the registration has been approved by the organizer, it must be confirmed by the payment.

10) To modify a registration

Be careful! In order to avoid any difficulty for the organization once the invoice made only names' changes can be modified online. Changes can be possible however they have to be submitted to the organizer so that he can take it into consideration and update the participants' list per discipline and make a new invoice if necessary.

Before the validation, to modify a registration please follow the procedure below:

a. To modify the discipline(s)

Via the tab **"Registrations recap"**, go to the participant's file by clicking on his **"name"** or his **"first name"**.

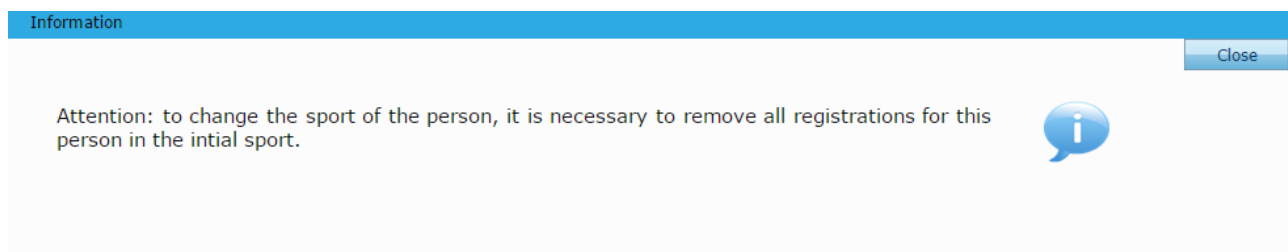

Then select the disciplines and click on **"Remove"** or **"Add"** in order to update the list. The modifications will automatically be taken into consideration and will be available via the tab **"Registrations recap"**.

The modifications must be approved by the organizer and/or by your federation as is the case with the original registrations. The factures will be generated and/or updated once the approvals have been executed.

b. To modify the sport/activity or to modify the coordinates of the person

Via the tab **"Registrations recap"**, go to the participant's file by clicking on his name or his first name.

Click on **"Change the member"**. The following pop-up will be displayed:

If it appears that entering modifications is not possible, start by clearing the list of *disciplines* the person has been registered for. Select the disciplines one by one, and then click on **"Remove"**.

Once the list is empty, the modifications of sports or coordinates can be executed (after having clicked once more on **"Change the member"**).

Next step is the registration of the modifications by clicking on **"Approve the member"**. You can then indicate the new *disciplines* chosen for the event.

The modifications must be approved by the organizer as was the case for the original registrations. The invoices will be generated and/or updated once the approvals have been executed.

11) To cancel a registration

Be careful ! No registration cancellation will be possible online once the invoice edited. Cancellation and refunds can be possible (according to the rules and the dates defined by the organizer), however they have to be directly submitted to the organizer so that he can take it into consideration, update the participants' list and make a refund if necessary.

Before receiving your invoice, you can cancel a registration. You simply have to clear the list of disciplines of the member concerned by selecting one by one the initial disciplines by clicking on **"Remove"**. The person will still appear in the list of members of your club but he will no more be registered for the event concerned.

12) To confirm and finish your club registration

In case you have finished the registration of your sports club, please confirm your registration is complete in the registration tool. Please follow the steps below. After this you will receive a personal confirmation e-mail of the registration of your sports club with all further information concerning invoice and payment.

STEP 1: check all your registered participants in "registrations recap" and complete the missing information if necessary

Make sure all of your participants are inscribed for the correct sporting discipline(s). Registrations that are complete will show a date of registration (right column).

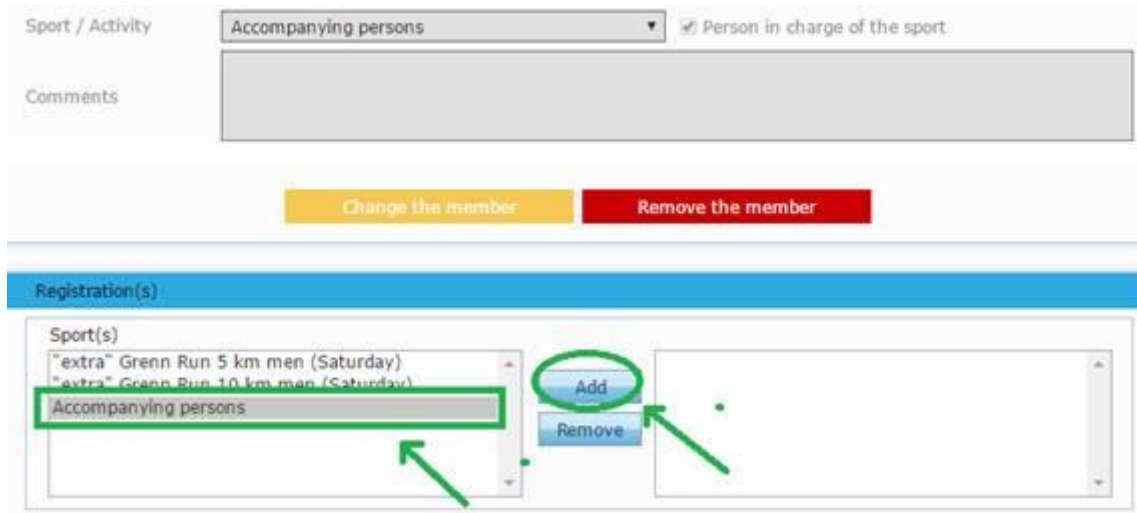

Incomplete registrations can not be validated by the organization !

Example of an incomplete registration:

In example below you can see that person 3 and person 4 have no registration date because they are not yet inscribed for a sporting discipline.

Name	First Name	Gender	Sport	Sporting discipline	Team	Valid federation	Valid organisation	Date d'inscription
Last name 1	First name 1	Male	Bowling	Bowling - Open	1 <input type="checkbox"/>	<input type="checkbox"/>		24/10/2016
Last name 2	First name 2	Male	Bowling	Bowling - Open	1 <input type="checkbox"/>	<input type="checkbox"/>		24/10/2016
Last name 3	First name 3	Male	Accompanying persons	?	<input type="checkbox"/>	<input type="checkbox"/>		
Last name 4	First name 4	Female	Accompanying persons	?	<input type="checkbox"/>	<input type="checkbox"/>		
Last name 5	First name 5	Female	Bowling	Bowling - Open	1 <input type="checkbox"/>	<input type="checkbox"/>		24/10/2016
Last name 6	First name 6	Female	Bowling	Bowling - Open	1 <input type="checkbox"/>	<input type="checkbox"/>		24/10/2016

In this case person 3 and person 4 who want to participate in the sport "Accompanying persons" need to add the sporting discipline "Accompanying persons" to their personal registration to complete their registration (this opens when you click the name of the person).

The screenshot shows a registration form with a dropdown menu for 'Sport / Activity' set to 'Accompanying persons'. Below it is a 'Comments' text area. Two buttons are visible: 'Change the member' (yellow) and 'Remove the member' (red). A section titled 'Registration(s)' contains a list of sports. The 'Accompanying persons' option is highlighted in green. To the right of the list are 'Add' and 'Remove' buttons, with the 'Add' button circled in green and an arrow pointing to it.

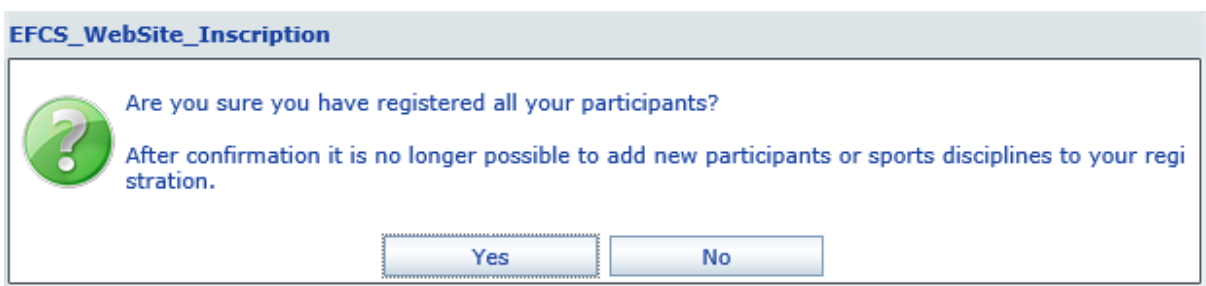

STEP 2: when all your participants are correctly registered go to "club modification"

STEP 3: click button in the left bottom corner "The registration of my sports club for this event is complete"

The registration of my sports club for this event is complete.

After you click this button you will see a popup where the registration tool asks you to confirm that all participants are registered.

When you click "yes" **it will no longer be possible to make changes to your registrations in the registration tool.** (If necessary you will still be able to send a request for change by e-mail to the organization.

The screenshot shows a confirmation dialog box titled 'EFCS_WebSite_Inscription'. It contains a question mark icon and the text: 'Are you sure you have registered all your participants? After confirmation it is no longer possible to add new participants or sports disciplines to your registration.' At the bottom, there are two buttons: 'Yes' and 'No'.

STEP 4: click "Yes"

When you are sure all the registrations of your sports club are complete, click "yes" to end your registration. You will see a popup "Registration completed" on your screen.
